Creativity Secrets for Being Twice as Productive

Are Success and Wealth Created Through Hard Work?

- Most People Work Hard But Are Almost Broke.
 - Success & Wealth Are Created in Your Mind!
-
- Your Mind **Contains Everything You Need** – you can use it to achieve anything you want.
 - **PROVIDING** you tap into its' true potential.
 - Everything That Exists **Started as an Idea** in the Mind of a Single Human Being

"Dr. Alexander Graham Bell, and Dr. Elmer R. Gates, observed that every human brain is both a broadcasting and receiving station for the vibration of thought.

Through the medium of the ether, in a fashion similar to that employed by the radio broadcasting principle, every human brain is capable of picking up vibrations of thought which are being released by other brains."

"Thought, which has been modified or "stepped up" by any of the major emotions, vibrates at a much higher rate than ordinary thought, and it is this type of thought which passes from one brain to another, through the broadcasting machinery of the human brain."

- Napoleon Hill

Creativity Secrets for Being Twice as Productive

Thomas Edison's Catnap Technique

- **Step 1:** Plant firmly in your mind the problem to which you need a solution.
- **Step 2:** Request a solution from your subconscious mind.
- **Step 3:** Summon up firm belief/faith that you will get a solution from your subconscious mind on awakening.
- **Step 4:** Relax and go to sleep for 30 mins to 1 hour.
- **Step 5:** The solution will come to you on awakening or may come in some other form over the next few days.

This technique is simple, yet very effective when done correctly!

Create a Mind Map to Stimulate Your Creativity

Mind maps work in the same way as your brain, and that's why they are so effective. They get you into a creative mind state, where ideas flow effortlessly .

- **Step 1:** Start with a central idea or goal – centre of page.
- **Step 2:** Brainstorm steps that can help you reach it.
- **Step 3:** Write down in any order as they come to mind.
- **Step 4:** Reorder them logically by linking them together.
- **Step 5:** As you see the map start to take shape more ideas will start coming into your mind.

This is a very simple way to get ideas for any project – no matter how complex

Day 1: Write out 10 ideas for improving your physical health

Day 2: Write out 10 ideas to create better emotional health

Priorities

The main things I must complete today, no matter what:

Time Blocking – for a dramatic increase in productivity

- Block Time is a focus-management approach that requires "blocking out" significant amounts of time to advance or complete a major project in your life.
- It requires you to get clear on a major dream and schedule real time to leap towards it.
- When doing time-blocking to progress any project - eliminate all distractions.
- Turn off your phone, social media, and make sure you are not disturbed, so you can have total focus and be at your most creative - so you can make the fastest progress possible.

GOAL: Minimum effort - maximum result.

Lets look at a great way to do this effectively...

Time Blocking Questions

Below, detail a dream you have and spend some time answering the questions and planning your block time:

DREAM 1:

1. A dream project I'd love to start or complete is.....
2. The reason this project is a dream of mine and I'm committed to it is.....
3. If I'm ever going to make this dream come true, I'd have to make these things my priority.....
4. A block of time I'm going to dedicate to this dream or project is..... (can be a daily block of time, or a block of time that is several days or weeks long where you focus on nothing else but the project, like writing a book over the next two weeks).

Repeat this process for other dreams you have.

To create the reality where I will have this much block time to complete the project, I will need to make these adjustments in my life.....

How to Win Back Time

Time is your most valuable possession – you never get more, but you can spend it much more wisely.

FACT: The average American spends 5 hours and 4 minutes watching TV every day. That's 1,849 hours each year, or the equivalent of watching TV 24/7/365 for 16 years of their life!!!

How different would their lives be if they watched just 1 hour less TV and spent that hour pursuing their goals in life?!

STRONG SUGGESTION: Just for 1 day, take account of how you spend each hour of that day. You may be very surprised how much time you could set aside by prioritising your time better.

POWERFUL FOCUSING QUESTION:

“What’s the ONE thing I can do that by doing it, everything else will be easier or unnecessary?”
